

Operations Management Software

Seven Figure Cost Savings

Adapt quickly using a web-based system

Manage laboratory operations with seven figure cost savings

Prioritize employee tasklists, schedule meetings, and set automated reminders

Attach notes and comments to all aspects of a job as work is performed

View specific customers and see process profitability reports

Collaboration

Discover new opportunities by sharing knowledge and ideas

Cal-Lab Manager facilitates collaborative innovation by connecting people with lab operations. It gives teams access to all of the corporate knowledge and ideas needed to work together more effectively. Cal-Lab Manager ensures availability of procedures, instruction manuals, notes, documents, pictures, and job status from anywhere. This sharing of knowledge and ideas promotes innovation.

Awareness

See real-time operational performance at a glance

Meeting your quality standards and profitability objectives is easy using Cal-Lab Manager with realtime insight into lab operations. Process profitability is visible through the tracking of resource time, requisitions, and sales.

Balance

Manage workflow

Cal-Lab Manager streamlines workflow by automating and minimizing the number of paths a job may flow through an organization. Supervisors can prioritize and delegate tasks for more effective use of resources. Automated reminders ensure that personnel perform follow-up and future activities.

Management Software Designed for Laboratory Operations

Create detailed calibration procedures and maintain consistent process quality

Organization

Reduce search time Improve efficiency

Cal-Lab Manager allows you to keystroke information once and electronically store all of the knowledge associated with a job. Action-item tracking throughout the process provides increased accountability. Transfer tasks, locate procedures, items, parts, and assets in seconds. Cal-Lab Manager uses a search engine in a paperless environment to find what you need fast.

Traceability

Reverse traceability reports in seconds

Cal-Lab Manager allows you to see any out-of-tolerance items in any date range. The item links directly to the data set for immediate viewing. A reverse traceability report is available for standards in any date range.

Agility

Adapt quickly using a web-based system

Easily configurable, Cal-Lab
Manager helps operations quickly
adapt processes to new challenges
and opportunities. Accessible by a
standard web browser, implementation
time for work stations is minimal
— allowing for rapid deployment
on a wide range of systems. Cal-Lab
Manager can be configured to match
corporate identity and job function
with role-based security, custom
graphics, status types, calibration
seals, technician signatures, and more.
